

In the article by Kadar et al in the February 2017 issue of *The Journal of Hand Surgery* (“The Vascular Anatomy of the Capitate: New Discoveries Using Micro-Computed Tomography Imaging”, Vol 42, No. 2, p. 78-86), Figure 2 and Video 1 are of a right and not left capitate and Figures 3 and 5 and Videos 2 and 3 are of the left and not the right capitate. Correspondingly, in all the figures, subtitle A is ulnar surface and C is radial surface. The authors apologize for this oversight.
